Preparation for Cockroach Treatment

We want to eradicate your home of cockroaches quickly and thoroughly. To achieve a successful treatment we need you do follow the prescribed outline.

Preparing your home for treatment:

1. Empty the kitchen drawers and cabinet of everything. We cannot treat *these areas when food dishes and cooking utensils are present*.
2. Remove all items under the bathroom sink.
3. Remove all toys, decorative items, cushions, clothing and other items from the floors.
4. Remove any articles from under the beds and furniture. We will be treating all the cracks and crevices, behind appliances, and all areas that harbor these insects.

Your co-operation is very important so we can do a thorough job.
Thank you for your co-operation.
